

# CALAVERAS BIG TREES STATE PARK VISITOR CENTER

California State Parks is building a new Visitor Center at Calaveras Big Trees State Park. Visitors will learn about the natural and cultural history of the park through exhibits and educational programs. Our goal is to create an informative and welcoming experience for all visitors.

California State Parks has contracted with Split Rock Studios, Inc., to develop the interpretive exhibits. At this stage, we have identified broad topics and are ready to focus on specific stories.

We would like to work with you to develop exhibits using your voice to tell the story of California Indians' relationship to this place.

We would like to learn what you feel is important and appropriate to share with visitors, including any images, artifacts and stories you believe would help visitors understand the continuing importance of this place to you and your family.

If you would like to participate in this process, please contact:

**Leslie Hartzell, Ph.D.**
